Portfolio

Education

Swami Vivekananda University

Bachelor of Technology in Computer Science and Engineering

Jul. 2024 – Jun. 2028

Barrackpore, West Bengal

Technical Skills

Languages: C/C++, JavaScript, Java

Frontend: React, HTML, CSS

Backend: Node.js, Express.js

Database: MongoDB

Familiar with: TypeScript, SQL

Learning: CI/CD

Developer Tools: Git, GitHub, Docker, Postman, Render, VS Code

Projects

Student Task Manager API | Node.js, Express, MongoDB

December 2025

- Built a RESTful API to manage student tasks with full CRUD operations (create, read, update, delete).
- Implemented user authentication and authorization using secure login system (JWT-based).
- Designed and structured MongoDB schemas for users and tasks with proper relationships and validations.
- Handled error management and API response formatting for consistent and scalable backend communication.

HealPlus — Smart India Hackathon (SIH) College-Level Project | React, CSS, JavaScript

September 2025

- Contributed to a team project aimed at designing a healthcare solution for improving rural medical accessibility.
- Implemented a clean UI with sections for movie listings, details, and navigation structure.
- Developed frontend interface using React with static JSON-based data handling.
- Built structured UI components for displaying patient-related information and service workflows.
- Collaborated with team members using GitHub for version control and task coordination during hackathon development.

MovieMania | HTML, CSS

June 2025

- Designed a responsive movie-themed web interface using semantic HTML and modern CSS layouts.
- Implemented a clean UI with sections for movie listings, details, and navigation structure.
- Built a light/dark theme toggle using pure CSS techniques without JavaScript.
- Focused on responsive design principles to ensure compatibility across mobile and desktop screens.

ZapQuiz | React, CSS, JavaScript

June 2025

- Developed a responsive quiz web interface with structured pages for quiz flow, questions, and results using semantic HTML.
- Designed an interactive UI with clean layouts, modern styling, and consistent visual hierarchy for better user experience.
- Built reusable UI components such as buttons, cards, and quiz layouts to maintain design consistency across pages.

Achievements

- Solved 30+ Data Structures & Algorithms problems on Leetcode.
- Participated in Smart India Hackathon (SIH) College-level round as a part of team project (HealPlus), contributing to frontend development and ui design.
- Completed SQL Murder Mystery challenge using advanced SQL queries and relational database concepts.

Leadership/Responsibility

- Led on-campus coordination for KASCADE, a quiz initiative by Indian Institute of Technology Kharagpur, including obtaining institutional approval, student outreach, event promotion and participation management.

Certification

- React Bootcamp — LetsUpgrade

February 2025
